Profile

Product Designer focused on product and design systems, with a technical base that lets me work alongside engineering instead of handing over mockups. I founded and design Kio —eight epics, three roles and a design system of 100+ components (250 counting variants) synced to code— and I built the agent system that designs my own products. Before that I sold to companies for over five years: I understand how a client buys and what they expect from a product.

Experience

Product Designer & Founder — Kio

Jun 2025 — present

KIO PLATAFORMA EDITORIAL SL · CIF B22730030 · Valencia

Social network for editorial articles. I founded the company and lead product and design: eight epics for three roles, flows, and a design system of 100+ components synced to code with engineering.

Product Designer & Founder — Flash Prop

May 2025 — present

Real-estate digital studio · Valencia

I designed and ran the whole system: an automated editing pipeline with two agents, plus product, brand and identity. Ten projects and over 300 photos delivered.

Sales Advisor and Head of Digital Advertising — Inmobiliaria ASKA

May 2023 — May 2025

Sales and Business Development Executive — Doctor Films Argentina

Sep 2020 — Jan 2023

Marketing and Digital Content Assistant — Adelaide Digital Hub

May 2019 — Apr 2020

Own projects

Boty — AI agents

2025 — present

System design · daily own use

I designed the interaction model of an AI agent system: autonomy levels, per-tool permissions, human review and what happens when the model fails. A third party replicated the structure and founded a company on it.

Skills

Product Design · Design Systems · Figma · Prototyping · UX/UI · Design Tokens · HTML · CSS · Applied AI · Agent design

Strengths. Judgement to decide with incomplete information · Communication with engineering · Direct work with B2B clients · Autonomy: I founded and run two projects of my own · Product writing

Education & languages

Higher Vocational Diploma in International Trade — IBE Formación (2023 — 2025) · **Google IT Support Professional Certificate** — Google (2020) · **Languages:** Spanish (native) · English (fluent)
